Professional Summary

Multidisciplinary professional with a compelling blend of data analytics expertise and technical training. Strategically positioned at the intersection of statistical analysis, industrial technical skills, and learning design. Proven track record of driving operational efficiency and knowledge transformation across diverse professional environments.

Experience

NLNG/NCDMB T7 Project HCD Basic Training Programme Hosted by Amaiden Energy Nigeria Limited

12/11/2024 - 12/11/2025

Pipe Fitting Intern | Welding and Fabrication Specialty

- Selected for prestigious 12-month professional development program
- Developing critical technical skills in precision welding and industrial fabrication
- Gaining comprehensive understanding of industrial technical processes

Thisway Conglomerate Ventures (3MTT/NJFP Program)

02/05/2024 - 02/05/2025

Entry-level Data Analyst

- Conducted advanced data analysis using specialized software tools
- Implemented data-driven strategies improving operational efficiency by 35%
- Designed targeted training workshops enhancing team data literacy
- Developed comprehensive data visualization solutions

Pilot Fisbell Schools, Port Harcourt

15/05/2023 - 14/11/2024

Basic Technology/Geography Instructor

- Taught Geography and Basic Technology to 150 students across 3 grade levels
- Implemented a project-based learning approach, increasing student engagement by 40%
- Developed an after-school tech club, attracting 30 regular attendees and improving STEM interest by 35%

Bestir Montessori Schools, Eleme Rivers State

05/2022 - 01/2023

Data Processing (ICT) and Basic Technology Teacher

- Created engaging lesson plans for 100 students, resulting in a 20% improvement in average test scores
- Introduced interactive learning tools, leading to a 30% increase in homework completion rates
- Mentored 5 struggling students, helping them improve their grades by an average of two letter grades

Timuwa Calvary Academy, Jalingo

04/2021 - 02/2022

NYSC Corp Member

- Taught Mathematics to 80 senior secondary students, improving class average from 65% to 78%
- Developed a peer tutoring program, resulting in a 25% reduction in failure rates
- Organized and led 3 educational field trips, enhancing practical understanding of concepts for 95% of participants

Education

UNIVERSITY OF CALABAR

2021

BSc (Hons) Statistics

NATIONAL YOUTH SERVICE CORPS (NYSC)

2021

NYSC Discharge Certificate

Core Competencies

- Data Analysis & Visualization
- Statistical Modeling
- Industrial Technical Training
- Web Design
- Problem-Solving
- Critical Thinking
- Adaptability

Skills

- Data Analytics Tools: Excel, SQL, Tableau, Python - Specialties: Statistical Modeling, Data Visualization, Predictive Analysis - Key Achievement: Developed dashboards reducing report generation time by 80%
- Industrial Technical Skills: Specialization: Pipe Fitting, Welding and Fabrication - Current Training: NLNG/NCDMB T7 Project HCD Basic Training Programme - Focus: Advanced Industrial Technical Processes

Publications

- Gboh-Igbara D.C., et al. (2024) "Application of Logistic Regression Model on the Spread of Malaria Infection in Calabar Municipality" Open Access Research Journal of Multidisciplinary Studies, 07(01), 022–038
DOI: <https://doi.org/10.53022/oarjms.2024.7.1.0055>

Professional Certifications

- Professional Soft skills in Emotional Intelligence (LinkedIn and Microsoft)
- Career Essentials Skills in Business Analysis (LinkedIn and Microsoft)
- Career Essentials Skills in Data Analysis and Visualization (LinkedIn and Microsoft)
- English For IT 1 & 2 (Cisco Networking Academy and OPEN EDG)

Personal Details

- Nationality : Nigeria
- Email : gbohigbaradc@aol.com
- Portfolio : <https://github.com/gbohigbaradc/gbohigbaradc.github.io>

Personal Attributes

- Passion for continuous learning and professional development.
- Meticulous attention to detail.
- Proactive in identifying and implementing solutions.
- Strong leadership and mentoring skills.
- Ability to work under pressure and meet deadlines.

Personal Projects

- Research Proposal: Enhancing Real-Time Nigerian Stock Analysis: An Integrated Statistical and AI-Driven Approach
- Conducted predictive modeling on malaria infections spread in Calabar Municipality, identifying [Findings: High prevalence of Malaria Infection at the suburbs of the metropolis]
- Created interactive COVID-19 data dashboards using Tableau and Power BI, visualizing trends across 15 countries.

Volunteer Experience

- Nigeria Red Cross Society, Jalingo, 08/2021 - 02/2022
 - Assisted in community outreach programs, impacting 100 of individuals
 - Participated in emergency response and first aid training sessions
- Servicom Vanguard Group, 04/2021 - 02/2022
 - Promoted service delivery best practices, contributed through sensitization program to encouraged 300 public schools students on the need for education.
 - Engaged in community service projects, benefiting 20 of local residents.

Languages

- English (Fluent)
- French (Basic)
