### HeadLine

## Position Applied For: Structural Welder / Fabricator

### Professional Experience

- Greenville LNG, Rumuji Emuoha LGA Rivers State Nigeria** Structural Welder (OJT) Jan 2025 - Present
  - Welded LNG pipeline components using MIG and Arc welding techniques
  - Interpreted engineering drawings and welding symbols
  - Reduced installation errors by 20% through precision welding
  - Participated in safety inspections and maintenance routines
- NLNG/NCDMB Train 7 Project (HCD Program) Port Harcourt** Nov 2024 - Nov 2025
  - Pipefitter Intern
  - Assisted in pipe layout, cutting, threading, and alignment
  - Supported welding and fabrication teams on-site
  - Trained in HSE and oil & gas safety standards

### Certifications

- NBTE Diploma in Pipe Fitting
- ISPON HSE Level 1, 2 & 3
- Structural Welding (Self-trained, Workshop Practice)
- NYSC Certificate – 2022
- BSc. Statistics – University of Calabar (2021)

### Education

- University of Calabar** 2021
  - BSc. (Hons) in Statistics
- National Youth Service Corps (NYSC)** 2022
  - NYSC Discharge Certificate

### Safety & Compliance Certifications

- ISPON HSE Level 1, 2 & 3 (Industrial Safety Practitioners of Nigeria)**
  - Trained in hazard identification and risk assessment
  - Knowledge of Permit to Work (PTW) systems
  - Committed to PPE usage and site safety protocol
  - Basic fire safety and emergency response awareness

### Tools & Equipment Proficiency

- Welding machines: MIG, TIG, SMAW
- Pipe threading and beveling tools
- Grinders, cutting torches, layout tools
- Spark-4 Edge Square Drive
- Basic CAD interpretation for piping layouts

### Professional Strengths

- - Physically fit and site-hardened
- Strong teamwork and communication skills
- Fast learner with attention to detail
- Punctual, disciplined, and safety-conscious
- Adaptable to offshore and remote site conditions

## Technical Skills & Trade Certifications

- Welding & Pipefitting Technician Trained at [Gennesarat Resources, PH]
  - Proficient in MIG, TIG, and Arc welding
  - Skilled in pipe threading, cutting, and layout
  - Familiar with Spark-4 Edge Square Drive and grinder operations
  - Able to interpret basic CAD drawings for pipe installations
  - Experience in fabrication, installation, and maintenance of piping systems

## Core Competencies

- - MIG, TIG, Arc Welding
- Pipefitting & Mechanical Assembly
- P&ID Interpretation
- Fabrication & Layout Planning
- Safety Compliance & Maintenance

## Industrial Experience

- Internship / Industrial Training
  - Company Name – Greenville LNG
  - Duration: [Jan 2025 – Nov 2025]
  - Assisted in pipe installation and welding operations
  - Supported senior technicians in maintenance tasks
  - Participated in toolbox talks and safety briefings

## References

- Professional references available, including direct supervisors from previous roles.

## Availability

- **Ready for immediate deployment to site (local or offshore)**
