HeadLine

Data & Business Analyst | Energy Sector Contributor | Digital Strategy Advocate

Professional Summary

- Multidisciplinary Analyst with a strong foundation in statistics, data analytics, and machine learning, complemented by hands-on field experience in the energy sector. Selected for the prestigious NLNG/NCDMB Train 7 HCCD Program, currently contributing to Greenville LNG through on-site data-driven insights. Adept at transforming raw data into strategic decisions, bridging technical analysis with operational execution. Passionate about digital transformation, stakeholder engagement, and continuous learning.

Career Objective

- To secure a dynamic role where I can apply my dual expertise in data analysis and hardware troubleshooting to support organizational growth, streamline operations, and enhance system reliability. I aim to contribute to a forward-thinking team that values innovation, precision, and continuous improvement.

Professional Experience
